

# FARM SAFETY

We strive to make our farm a safe and happy place for both our visitors and our animals. Please discuss these safety rules with the students and parents **PRIOR** to arriving at the farm. Then have fun...safely

1. Listen carefully to Farmer Kathy's instructions
2. Children must be **CLOSELY SUPERVISED** by an adult at all times
3. Always move slowly and **QUIETLY** with the animals. They do not like to be bullied or chased
4. Enjoy playing in the straw fort. Do not throw straw or open the straw bales
5. Never climb on fences or gates
6. All visitors must wash their hands thoroughly when leaving the barnyard. Wash buckets will be provided at the gate
7. There is absolutely no smoking on the farm
8. Before leaving for home put all the playground toys and games away so it will be clean and tidy for the next little visitors

We make every effort to create a safe, yet realistic environment. We do not accept any responsibility for accidents. Our facility is used entirely at your own risk. When all safety rules have been discussed, please sign and date. Give to Farmer Kathy upon arrival.
